Authors Index

A

Abou-Sayed, A.S. *et al.*: *Detection of Formation Fracture in a Waterflooding Experiment*, (Tech. Paper SPE13747) JPT Oct., 86 1113-1121

Aguilera, R.: *Discussion of What Discounted Cash Flow Rate of Return Never Did Require*, (Discussion SPE15331) JPT June, 86 676-678

Al Safar, A. *et al.*: *Detection of Formation Fracture in a Waterflooding Experiment*, (Tech. Paper SPE13747) JPT Oct., 86 1113-1121

Al-Hinai, K.M. *et al.*: *Shuaiba Reservoir Geological Study, Yibal Field, Oman*, (Tech. Paper SPE11454) JPT June, 86 651-661

Albright, J.C.: *Use of Well Logs To Characterize Fluid Flow in the Maljamar CO2 Pilot*, (Tech. Paper SPE13142) JPT Aug., 86 883-890

Anderson, A.R. *et al.*: *A Field Study of Underbalance Pressures Necessary To Obtain Clean Perforations Using Tubing-Conveyed Perforating*, (Tech. Paper SPE14321) JPT June, 86 662-664

Anderson, W.G.: *Wettability Literature Survey—Part 3: The Effects of Wettability on the Electrical Properties of Porous Media*, (Tech. Paper SPE13934) JPT Dec., 86 1371-1378

Anderson, W.G.: *Wettability Literature Survey—Part 2: Wettability Measurement*, (Tech. Paper SPE13933) JPT Nov., 86 1246-1262

Anderson, W.G.: *Wettability Literature Survey—Part 1: Rock/Oil/Brine Interactions and the Effects of Core Handling on Wettability*, (Tech. Paper SPE13932) JPT Oct., 86 1125-1144

B

Bernard, W.J. *et al.*: *A Summary of the Geothermal and Methane Production Potential of U.S. Gulf Coast Geopressured Zones From Well Test Data*, (Tech. Paper SPE13090) JPT Dec., 86 1365-1370

Bingham, M. *et al.*: *A Field Study of Underbalance Pressures Necessary To Obtain Clean Perforations Using Tubing-Conveyed Perforating*, (Tech. Paper SPE14321) JPT June, 86 662-664

Bodvarsson, G.S. *et al.*: *Modeling of Geothermal Systems*, (Tech. Paper SPE13613) JPT Sept., 86 1007-1021

Bohannon, J.M. *et al.*: *The 1984 Natl. Petroleum Council Study on EOR: An Overview*, (Tech. Paper SPE13239) JPT Aug., 86 869-874

Bowen, R.R. *et al.*: *The Planning of a Large-Scale Miscible Flood at Prudhoe Bay*, (Tech. Paper SPE13600) JPT Oct., 86 1103-1110

Broome, J.H. *et al.*: *The 1984 Natl. Petroleum Council Study on EOR: An Overview*, (Tech. Paper SPE13239) JPT Aug., 86 869-874

C

Cady, G.V. and Meister, P.M.: *Corporate Takeovers and Petroleum-Industry Restructuring*, (Tech. Paper SPE15169) JPT May, 86 549-556

Caldwell, R.H.: *The Use of Computerized Statistical Data in Risk Appraised Economic Analysis of Oil and Gas Prospects*, (Tech. Paper SPE13781) JPT Apr., 86 447-452

Campbell, J.E. and MacDonald, R.C.: *Valuation of Supplemental and Enhanced Oil Recovery Projects With Risk Analysis*, (Tech. Paper SPE11303) JPT Jan., 86 57-69

Campbell, J.M.: *Nontechnical Distortions in the Analysis and Management of Petroleum Investments*, (Tech. Paper SPE14672) JPT Dec., 86 1336-1344

Campbell, R.A.: *Author's Reply to Discussion of Application of the SI Metric System: Part 2—The Basic Units*, (Rebuttal SPE15190) JPT Jan., 86 97

Carson, G.P. *et al.*: *Energy Lending Profitability*, (Tech. Paper SPE13787) JPT Dec., 86 1345-1352

Chappelear, J.E. *et al.*: *Second Comparative Solution Project: A Three-Phase Coning Study*, (Tech. Paper SPE10489) JPT Mar., 86 345-353

Chisholm, P.T. *et al.*: *In-Situ Stress Measurements During Drilling*, (Tech. Paper SPE13227) JPT Aug., 86 891-898

Clancy, M. *et al.*: *Phase Behavior of Systems Comprising North Sea Reservoir Fluids and Injection Gases*, (Tech. Paper SPE12647) JPT Nov., 86 1221-1233

Clark, D.G. and Van Golf-Racht, T.D.: *Authors' Reply to Discussion of Pressure-Derivative Approach to Transient Test Analysis: A High-Permeability North Sea Reservoir Example*, (Rebuttal SPE15320) JPT Mar., 86 355

Coats, K.H. and Ramesh, A.B.: *Effects of Grid Type and Difference Scheme on Pattern Steamflood Simulation Results*, (Tech. Paper SPE11079) JPT May, 86 557-569

Collarini, C.R.: *Discussion of What Discounted Cash Flow Rate of Return Never Did Require*, (Discussion SPE15327) JPT June, 86 674-675

Collins, H.N.: *Discussion of Porosity Calibration of Neutron Deflection Logs, SACROC Unit*, (Discussion SPE15799) JPT July, 86 768

Courteille, J.M. *et al.*: *An Advanced Solution—The Drilling Adviser*, (Tech. Paper SPE12072) JPT Aug., 86 899-904

Creath, N.H. *et al.*: *Energy Lending Profitability*, (Tech. Paper SPE13787) JPT Dec., 86 1345-1352

Crocker, C.P.: *Discussion of Computing the Internal Rate of Return*, (Discussion SPE15843) JPT Aug., 86 906

Crowe, C.W.: *Precipitation of Hydrated Silica From Spent Hydrofluoric Acid: How Much of a Problem Is It?*, (Tech. Paper SPE13083) JPT Nov., 86 1234-1240

D

Dale, B.A. and Moyer, M.C.: *Methods for Evaluating the Quality of Oilfield Tubular Inspections*, (Tech. Paper SPE13065) JPT Jan., 86 88-96

Daneshy, A.A. *et al.*: *In-Situ Stress Measurements During Drilling*, (Tech. Paper SPE13227) JPT Aug., 86 891-898

David, A. *et al.*: *Energy Lending Profitability*, (Tech. Paper SPE13787) JPT Dec., 86 1345-1352

Davis, P.J.R. and Pond, R.J.: *Development of the Subsea Completion System for the Highlander Field*, (Tech. Paper SPE13428) JPT Apr., 86 453-460

Dismukes, N.B. *et al.*: *Shuaiba Reservoir Geological Study, Yibal Field, Oman*, (Tech. Paper SPE11454) JPT June, 86 651-661

Dougherty, E.L. *et al.*: *Use of Mathematical Decomposition To Optimize Investments in Gas Production and Distribution*, (Tech. Paper SPE11292) JPT Jan., 86 70-84

Dougherty, E.L.: *What Discounted Cash Flow Rate of Return Never Did Require*, (Tech. Paper SPE14694) JPT Jan., 86 85-87

Dougherty, E.L. and Ershaghi, I.: *What is the Current Role of Computers in Petroleum Engineering Education, and What Should It Be?*, (Tech. Paper SPE13291) JPT Feb., 86 197-207

Dougherty, E.L.: *Author's Reply to Discussions of What Discounted Cash Flow Rate of Return Never Did Require*, (Rebuttal SPE15681) JPT June, 86 679-681

Douglass, T.R.: *Linear Programming Optimizes Unit Negotiations*, (Tech. Paper SPE13766) JPT Mar., 86 330-336

flood experience. Seeks engineering and/or operations position. Will relocate. Résumé on request. **Code 849.**

Petroleum engineer (BSPE, U. of Oklahoma, May 1986) seeks position with major or independent, will consider any related opportunity. One summer's experience with major. Extremely motivated. Will relocate. Résumé on request. **Code 848.**

Environmental professional well versed in oilfield drilling and production waste management and disposal. Cognizant of drilling fluid products and wastes' relationship to transportation, permitting, governmental regulations, and disposal (environmental) criteria. Knowledgeable of current and pending state and federal requirements. Excellent organizational and communication skills; successful project execution. Will solve problems and do original work. Pilot's license (SES). Will relocate and travel. Available on retainer, contract, or consultant basis. **Code 847.**

Petroleum engineer (BS, Texas Tech U., May 1985), 1 year with major service company, 1 summer with major, and 2 years' oil and gas analysis experience. Fluent in FORTRAN and BASIC, seeks entry-level position with major or independent. Will relocate. Available immediately. Résumé on request. **Code 846.**

Petroleum engineer (BSPE, Louisiana State U.) with 2 years' diversified drilling operations experience with major offshore contractor, including various rig systems and drilling situations on floaters and jackups, office in drilling engineering department, and offshore production. Seeks position in E&P department, will relocate and travel. Résumé on request. **Code 845.**

Petroleum engineer (BSPE, U. of Missouri, Rolla, May 1980) with more than 6 years' drilling and production engineering experience in Alaska and U.S. gulf coast with major. Engineering, well logging, wellsite supervision, drilling (on- and offshore), and completion. Hard-working and dependable, seeks responsible challenging position to use experience. Will relocate. Available immediately. Résumé on request. **Code 844.**

Petroleum engineer (BSPE, Texas A&M U.) with 16 years' diversified experience (10 major, 6 independent), bilingual (Spanish), 7 years' experience in South America, last 7 years U.S. (3 as vice president of a public independent). Seeks challenging international or U.S. opportunity. Available immediately. Will relocate. Résumé on request. Call 713/981-3228. **Code 843.**

Petroleum engineer/operations manager with 20 years' experience with major and contractor in U.S. gulf coast and international (Middle East, South America, and Asia, on- and offshore China). Experience includes organizing/developing operations through all facets in drilling. Seeks engineering and/or operations position. Will relocate anywhere. Résumé on request. **Code 842.**

Petroleum engineer (BS, Louisiana State U., 1983; MS in business administration, Tulane U., Dec. 1986). Concentrated in finance and economics, top quarter of class. Interests include long-range financial planning, economic analysis of projects, negotiations, mergers and acquisitions, and corporate finance. Excellent communication and computer skills. Seeks related position within the industry or energy banking. Résumé on request. Call 504/866-9704. **Code 841.**

Petroleum engineer (MSPE, U. of Southern California; BS in geology, U. of California, Los Angeles) with 11 years' experience, including finding new oil, receiving new EOR process patent, conceiving projects resulting in drilling more than 200 new wells, EOR pilot design, execution, and improvements in fluid injection techniques. Knowledgeable in EOR processes; accomplished in technical, economic, and administrative functions of reservoir engineering (on- and off-shore); supervisory experience. Résumé on request. **Code 840.**

Operations manager with 13 years' experience in production and reservoir engineering, last 5 years as operations manager. Seeks position to locate, evaluate, and operate producing property acquisitions and/or exploratory prospects for investors. **Code 839.**

Petroleum geologist with 12 years' exploration and development experience in Appalachian and Michigan basins. Strong technical geological skills, working knowledge of engineering and land disciplines. Seeks position with aggressive independent operator. Available immediately, will relocate. **Code 838.**

Petroleum engineer, currently with major California utility on energy management to save oil companies money in production operations. Seeks production engineering position with international potential. **Code 837.**

Petroleum technologist (AS, Colorado Northwest Community C.) with 10 years' field experience, including mud engineer for major mud company, last 6 as drilling foreman for major. Worked major basins of Rocky Mountains in drilling, completion, and workovers. Field oriented, hard-working, seeks any industry position. Will relocate. Résumé on request. Call 307/856-5554. **Code 836.**

Petroleum engineer (BS, U. of Texas, May 1986) seeks entry-level drilling department position with independent or contractor. Experience includes more than 3 years' hands-on with drilling contractor offshore; one summer with major's drilling department offshore. Hard worker with people motivation skills. Résumé on request. Call 918/745-9140 or write **Code 831.**

Petroleum engineer (BSCE, BSGE, currently working on MSPE) with 6 years' diversified Permian Basin experience with aggressive major. Considerable production, operations, and reservoir engineering experience; extensive primary exploitation, waterflood feasibility and expansion, and unitization studies; strong background in formation evaluation, property acquisitions, divestments, and economic analysis. Will relocate. Résumé on request. **Code 815.**

Petroleum engineer (BS, Texas A&M U., Dec. 1984) with additional petroleum/business economics and finance graduate work. Enthusiastic, aggressive, hard-working, with desire to achieve and excel; 2 summers' experience in industry. Seeks entry-level position with major or independent, salary open. Available immediately. Will relocate. Résumé on request. **Code 782.**

Petroleum engineer (BSME, U. of Texas, 1974) with business background and 12 years' experience in E&P and acquisitions. Strong in prospect evaluation, acquisition analysis, bidding, negotiating, closing, and management. Seeks acquisitions and prospect-review related position. Will relocate and travel. Available immediately. Résumé on request. **Code 768.**

Petroleum engineer (BSPE; BS in business, U. of Wyoming) with 10 years' diversified experience with major and well servicing company. Strong organizational, team-building, people-motivation, and communication skills. Well versed in FORTRAN; private pilot's license. Seeks responsible position that will use education, hands-on, and management training skills. Will relocate. Résumé on request. **Code 735.**

Subject Index

A

Acidizing
- Concepts: matrix vs. fracture acidizing, (Tech. Paper SPE 15279) JPT May 86, 507-508
- In oilfield operations: overview of formation damage, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
- Sandstone matrix: simulation in heterogeneous reservoirs, (Tech. Paper SPE 13218) JPT Jul. 86, 753-767

Acquisitions
- Leveraged: impact on profitability in energy lending, (Tech. Paper SPE 13787) JPT Dec. 86, 1345-1352

Aeromagnetic Exploration
- Remote sensing: practical applications of, (Tech. Paper SPE 15192) JPT Jan. 86, 9-16

Alaska
- Prudhoe Bay field: planning of large-scale miscible flood, (Tech. Paper SPE 13600) JPT Oct. 86, 1103-1110

Algorithm
- To solve linear programming models: optimizing unit negotiations, (Tech. Paper SPE 13766) JPT Mar. 86, 330-336

B

Base Units
- SI metric system: application of; Part 2, the basic units; author's reply to discussion of, (Rebuttal SPE 15909) JPT Aug. 86, 905
- SI metric system: application of; Part 2, the basic units; discussion of, (Discussion SPE 15141) JPT Jan. 86, 97
- SI metric system: application of; Part 2, the basic units; further discussion of, (Discussion SPE 15329) JPT May 86, 592-593
- SI metric system: application of; Part 2, the basic units; further discussion of, (Discussion SPE 15344) JPT May 86, 593
- SI metric system: application of; Part 2, the basic units; further discussion of, (Discussion SPE 15844) JPT Aug. 86, 905

Belridge Oil Field
- See California

Bidding
- OCS leases: non-log normality of data, (Tech. Paper SPE 13756) JPT Apr. 86, 443-446

Bits
- Deviation: factors controlling hole angle and direction, (Tech. Paper SPE 15963) JPT Nov. 86, 1171-1173

Blowouts
- How preventers work, (Tech. Paper SPE 15795) JPT Sept. 86, 935-937

Bottomhole Assemblies
- Behavior: factors controlling hole angle and direction, (Tech. Paper SPE 15963) JPT Nov. 86, 1171-1173

Brines
- Rock/oil interactions: and effects of core handling on wettability; literature survey, (Tech. Paper SPE 13932) JPT Oct. 86, 1125-1144

Bureau of Mines
- Method of wettability measurement: literature survey, (Tech. Paper SPE 13933) JPT Nov. 86, 1246-1262

C

Calibration
- Porosity by neutron logs: SACROC unit, (Tech. Paper SPE 13289) JPT Apr. 86, 468-476
- Porosity by neutron logs: SACROC unit; author's reply to discussion of, (Rebuttal SPE 15846) JPT Jul. 86, 768
- Porosity by neutron logs: SACROC unit; discussion of, (Discussion SPE 15799) JPT Jul. 86, 768

California
- Regulatory changes impacting drilling and producing operations, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985
- South Belridge field: oilfield surveillance with personal computers, (Tech. Paper SPE 13632) JPT Jun. 86, 665-668
- Wilmington field: test of CO2 recovery of heavy oil, (Tech. Paper SPE 12082) JPT Jul. 86, 769-776

Canada
- Tubing-conveyed perforating: field study of underbalance pressures necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

Carbon Dioxide
- Maljamar pilot: use of well logs to characterize fluid flow, (Tech. Paper SPE 13142) JPT Aug. 86, 883-890
- Recovery of heavy oil: Wilmington field test, (Tech. Paper SPE 12082) JPT Jul. 86, 769-776
- Surface processing of carbon dioxide in EOR projects, (Tech. Paper SPE 15916) JPT Aug. 86, 823-828
- Value of: framework and results, (Tech. Paper SPE 15194) JPT Sept. 86, 987-994

Case Histories
- Of Wilcox (Lobo) trend: Webb and Zapata counties, TX, (Tech. Paper SPE 11600) JPT Dec. 86, 1355-1364

Cash Flow
- Model: for energy lending profitability, (Tech. Paper SPE 13787) JPT Dec. 86, 1345-1352

Cementing
- Improved success through real-time job monitoring, (Tech. Paper SPE 15280) JPT Jun. 86, 619-620
- In oilfield operations: overview of formation damage, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152

Commissioning
- SI system: application of; part 2, the basic unit; author's reply to discussion of, (Rebuttal SPE 15909) JPT Aug. 86, 905

Comparative Solution Project
- Second: three-phase coning study, (Tech. Paper SPE 10489) JPT Mar. 86, 345-353

Completion
- Subsea system development: Highlander field, United Kingdom, (Tech. Paper SPE 13428) JPT Apr. 86, 453-460

Completion Practice
- Webb and Zapata counties, TX: case study of Wilcox (Lobo) trend, (Tech. Paper SPE 11600) JPT Dec. 86, 1355-1364

Computers
- Based consultant: the Drilling Advisor-an advanced solution, (Tech. Paper SPE 12072) JPT Aug. 86, 899-904
- In petroleum engineering education: current role and what should it be?, (Tech. Paper SPE 13291) JPT Feb. 86, 197-207
- Micro: and petroleum economics software; purchaser's guide, (Tech. Paper SPE 13101) JPT Mar. 86, 337-344
- Personal: oilfield surveillance with, (Tech. Paper SPE 13632) JPT Jun. 86, 665-668
- Program: for computing the internal ROR, (Tech. Paper SPE 14879) JPT May 86, 577-582

Program: for computing the internal ROR; discussion of, (Discussion SPE 15843) JPT Aug. 86, 906
Programs: use in porosity calibration of neutron logs, (Tech. Paper SPE 13289) JPT Apr. 86, 468-476
Programs: use in porosity calibration of neutron logs; author's reply to discussion, (Rebuttal SPE 15846) JPT Jul. 86, 768
Programs: use in porosity calibration of neutron logs; discussion of, (Discussion SPE 15799) JPT Jul. 86, 768
Use of statistical data in risk-appraised economic analysis of oil and gas prospects, (Tech. Paper SPE 13781) JPT Apr. 86, 447-452

Condensates
And crude oil systems: engineering applications of phase behavior, (Tech. Paper SPE 15835) JPT Jul. 86, 715-723
And crude oil systems: engineering applications of phase behavior; author's reply to discussion of, (Rebuttal SPE 16177) JPT Nov. 86, 1264
And crude oil systems: engineering applications of phase behavior; discussion of, (Discussion SPE 16046) JPT Nov. 86, 1263

Coning
Three-phase: second comparative solution project study, (Tech. Paper SPE 10489) JPT Mar. 86, 345-353

Consultants
Computer-based: the Drilling Adviser-an advanced solution, (Tech. Paper SPE 12072) JPT Aug. 86, 899-904

Contact Angle
In wettability measurement: literature survey, (Tech. Paper SPE 13933) JPT Nov. 86, 1246-1262

Continental Shelf
U.K. North Sea field developments: historic costs and future trends, (Tech. Paper SPE 12984) JPT Nov. 86, 1211-1220

Contractors
And drilling plans: economic analysis by use of a drilling systems approach, (Tech. Paper SPE 13466) JPT Jul. 86, 787-793

Controls
Blowout preventers: how they work, (Tech. Paper SPE 15795) JPT Sept. 86, 935-937

Conversion Factors
SI metric system: application of; Part 2, the basic unit; author's reply to discussion of, (Rebuttal SPE 15909) JPT Aug. 86, 905
SI metric system: application of; Part 2, the basic units; author's reply to discussion of, (Rebuttal SPE 15190) JPT Jan. 86, 97
SI metric system: application of; Part 2, the basic units; discussion of, (Discussion SPE 15141) JPT Jan. 86, 97
SI metric system: application of; Part 2, the basic units; further discussion of, (Discussion SPE 15329) JPT May 86, 592-593
SI metric system: application of; Part 2, the basic units; further discussion of, (Discussion SPE 15344) JPT May 86, 593
SI metric system: application of; Part 2, the basic units; further discussion of, (Discussion SPE 15844) JPT Aug. 86, 905

Core Analysis
By X-ray CT and NMR imaging of rocks, (Tech. Paper SPE 15277) JPT Mar. 86, 257-259

Cores
Handling of: effects on wettability; literature survey, Part 1, rock/oil/brine interactions, (Tech. Paper SPE 13932) JPT Oct. 86, 1125-1144

Cormorant Field
See United Kingdom

Corporations
Takeovers: and petroleum industry restructuring, (Tech. Paper SPE 15169) JPT May 86, 549-556

Corrosion
By carbon dioxide: surface processing in EOR projects, (Tech. Paper SPE 15916) JPT Aug. 86, 823-828
In sour gas environment: selection of materials for service in petroleum production, (Tech. Paper SPE 16040) JPT Oct. 86, 1051-1061

Costs
Analysis of drilling plans and contractors: use of a drilling systems approach, (Tech. Paper SPE 13466) JPT Jul. 86, 787-793
Crude oil price effects: 1984 Natl. Petroleum Council study on EOR, (Tech. Paper SPE 13239) JPT Aug. 86, 869-874
Historic: and future trends; North Sea field developments, (Tech. Paper SPE 12984) JPT Nov. 86, 1211-1220
Of oil reserves, (Tech. Paper SPE 13773) JPT Mar. 86, 325-329
Of recovering crude oil by surfactant waterflood techniques: general approach to estimating, (Tech. Paper SPE 13236) JPT Feb. 86, 208-216
Permissable for CO2 in EOR projects; framework and results, (Tech. Paper SPE 15194) JPT Sept. 86, 987-994

Crude Oils
And condensate systems: engineering applications of phase behavior, (Tech. Paper SPE 15835) JPT Jul. 86, 715-723
And condensate systems: engineering applications of phase behavior; author's reply to discussion of, (Rebuttal SPE 16177) JPT Nov. 86, 1264
And condensate systems: engineering applications of phase behavior; discussion of, (Discussion SPE 16046) JPT Nov. 86, 1263
Cast of recovering by surfactant waterflood techniques: general approach to estimating, (Tech. Paper SPE 13236) JPT Feb. 86, 208-216

Curricula Trends
In petroleum engineering education: what is current role and what should it be?, (Tech. Paper SPE 13291) JPT Feb. 86, 197-207

D

Data
Collection: improved cementing success through real-time job monitoring, (Tech. Paper SPE 15280) JPT Jun. 86, 619-620
Computerized statistics: use in risk-appraised economic analysis; oil and gas prospects, (Tech. Paper SPE 13781) JPT Apr. 86, 447-452
Gathering system: oilfield surveillance with personal computers, (Tech. Paper SPE 13632) JPT Jun. 86, 665-668
OCS lease bidding: non-log normality of, (Tech. Paper SPE 13756) JPT Apr. 86, 443-446
Test well: summary of geothermal and methane production potential of U.S. Gulf coast geopressured zones, (Tech. Paper SPE 13090) JPT Dec. 86, 1365-1370

Deliverability
Potential: of gas wells without using stabilized flow data; analysis of modified isochronal tests to predict stabilization condition; discussion of, (Discussion SPE 12933) JPT Oct. 86, 1122-1124

Design
Of large-scale miscible flood: Prudhoe Bay field, Alaska, (Tech. Paper SPE 13600) JPT Oct. 86, 1103-1110

Detection
Of a formation fracture: waterflooding experiment, (Tech. Paper SPE 13747) JPT Oct. 86, 1113-1121
Developments
Engineering: Mobil's integrated approach, (Tech. Paper SPE 13292) JPT Dec. 86, 1353-1354
Gasfield: reservoir and production operations planning, (Tech. Paper SPE 11472) JPT Feb. 86, 217-226
In remote elemental analysis of rock formations, (Tech. Paper SPE 15281) JPT Jul. 86, 711-713
North Sea field: historic costs and future trends, (Tech. Paper SPE 12984) JPT Nov. 86, 1211-1220
Of simulation model: application to oilfield venture analysis with systems approach, (Tech. Paper SPE 14488) JPT Oct. 86, 1111-1112
Of subsea completion system: Highlander field, United Kingdom, (Tech. Paper SPE 13428) JPT Apr. 86, 453-460
Discounted Cash Flow
ROR: what it never did require, (Tech. Paper SPE 14694) JPT Jan. 86, 85-87
ROR: what it never did require; author's reply to discussions of, (Rebuttal SPE 15681) JPT Jun. 86, 679-681
ROR: what it never did require; discussion of, (Discussion SPE 15327) JPT Jun. 86, 674-675
ROR: what it never did require; discussion of, (Discussion SPE 15324) JPT Jun. 86, 675
ROR: what it never did require; discussion of, (Discussion SPE 15331) JPT Jun. 86, 676-678
ROR: what it never did require; discussion of, (Discussion SPE 15332) JPT Jun. 86, 678
ROR: what it never did require; discussion of, (Discussion SPE 15910) JPT Sept. 86, 986
Disposal
Economics of methods for North Sea oil and gas fields: study in comparative advantage, (Tech. Paper SPE 13780) JPT May 86, 570-576
Distortion
Nontechnical: in analysis and management of petroleum investments, (Tech. Paper SPE 14672) JPT Dec. 86, 1336-1344
Distribution
And gas production: use of mathematical decomposition to optimize investments, (Tech. Paper SPE 11292) JPT Jan. 86, 70-84
Of OSC lease bidding: non-log-normality of data, (Tech. Paper SPE 13756) JPT Apr. 86, 443-446
Of fluids in reservoir: Part 1, rock/oil/brine interactions and effects of core handling on wettability; literature survey, (Tech. Paper SPE 13932) JPT Oct. 86, 1125-1144
Of probability: projected outcomes of exploration programs based on current program status; impact of prospects under consideration, (Tech. Paper SPE 13783) JPT Apr. 86, 461-467
Drilling
Adviser: an advanced solution, (Tech. Paper SPE 12072) JPT Aug. 86, 899-904
Blowout preventers: how they work, (Tech. Paper SPE 15795) JPT Sept. 86, 935-937
Efficiency: planning technique is key; author's reply to discussion of, (Rebuttal SPE 15044) JPT Feb. 86, 227
Efficiency: planning technique is key; discussion of, (Discussion SPE 14971) JPT Feb. 86, 227
Hole angle and direction: factors controlling, (Tech. Paper SPE 15963) JPT Nov. 86, 1171-1173
In-situ stress measurements during drilling, (Tech. Paper SPE 13227) JPT Aug. 86, 891-898
Measurement while: new tool, (Tech. Paper SPE 15276) JPT Feb. 86, 128-130
Measurement while: new tool; author's reply to discussion of, (Rebuttal SPE 15343) JPT May 86, 590-591
Measurement while: new tool; discussion of, (Discussion SPE 15328) JPT May 86, 590
Regulatory practices impacting, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985
Systems approach: use for economic analysis of drilling plans and contractors, (Tech. Paper SPE 13466) JPT Jul. 86, 787-793
Dynamics
Of miscible displacement, (Tech. Paper SPE 15794) JPT Aug. 86, 817-818

E

East Wilmington Field
See California
Economics
Analysis of drilling plans and contractors: use of a drilling systems approach, (Tech. Paper SPE 13466) JPT Jul. 86, 787-793
Computing the internal ROR (IRR), (Tech. Paper SPE 14879) JPT May 86, 577-582
Computing the internal ROR (IRR); discussion of, (Discussion SPE 15843) JPT Aug. 86, 906
Crude oil price effects on ROR minimum requirements: 1984 Natl. Petroleum Council study on EOR, (Tech. Paper SPE 13239) JPT Aug. 86, 869-874
Discounted cash flow ROR: what it never did require; author's reply to discussions of, (Rebuttal SPE 15681) JPT Jun. 86, 679-681
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15327) JPT Jun. 86, 674-675
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15324) JPT Jun. 86, 675
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15331) JPT Jun. 86, 676-678
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15332) JPT Jun. 86, 678
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15910) JPT Sept. 86, 986
Framework: value of CO2 for EOR projects, (Tech. Paper SPE 15194) JPT Sept. 86, 987-994
Historic costs and future trends: North Sea field developments, (Tech. Paper SPE 12984) JPT Nov. 86, 1211-1220
Microcomputers and petroleum software: purchaser's guide, (Tech. Paper SPE 13101) JPT Mar. 86, 337-344
Of disposal methods for North Sea oil and gas fields: study in comparative advantage, (Tech. Paper SPE 13780) JPT May 86, 570-576
Of recovering crude oil by surfactant waterflood techniques: general approach to estimating, (Tech. Paper SPE 13236) JPT Feb. 86, 208-216
Of supplemental and enhanced oil recovery projects: valuation with risk analysis, (Tech. Paper SPE 11303) JPT Jan. 86, 57-69
Oil and gas: method for selecting software for microcomputer systems, (Tech. Paper SPE 13761) JPT Feb. 86, 189-196
Oil and gas: method for selecting software for microcomputer systems; author's reply to discussion of, (Rebuttal SPE 15679) JPT Jun. 86, 673

Oil and gas: method for selecting software for microcomputer systems; discussion of, (Discussion SPE 15341) JPT Jun. 86, 673
Oilfield: role of 3D seismic technique in improving, (Tech. Paper SPE 13053) JPT Jul. 86, 777-786
Optimizing investments in gas production and distribution: use of mathematical decomposition, (Tech. Paper SPE 11292) JPT Jan. 86, 70-84
Risk-appraised analysis of oil and gas prospects: use of computerized statistical data, (Tech. Paper SPE 13781) JPT Apr. 86, 447-452
Screening model for EOR potential by miscible processes: 1984 Natl. Petroleum Council estimate, (Tech. Paper SPE 13241) JPT Aug. 86, 875-882

Efficiency
Drilling: planning technique is key; author's reply to discussion of, (Rebuttal SPE 15044) JPT Feb. 86, 227
Drilling: planning technique is key; discussion of, (Discussion SPE 14971) JPT Feb. 86, 227

Electrical Properties
Of porous media: effects of wettability on; Part 3, wettability literature survey, (Tech. Paper SPE 13934) JPT Dec. 86, 1371-1378

Electromagnetic Propagation Tool
For microcomputers and petroleum economics software purchase, (Tech. Paper SPE 13101) JPT Mar. 86, 337-344

Energy
Lending profitability, (Tech. Paper SPE 13787) JPT Dec. 86, 1345-1352
Middle East oil: geopolitical implications, (Tech. Paper SPE 14625) JPT Nov. 86, 1241-1245

Engineering
Applications: of phase behavior of crude oil and condensate systems, (Tech. Paper SPE 15835) JPT Jul. 86, 715-723
Applications: phase behavior of crude oil and condensate systems; author's reply to discussion of, (Rebuttal SPE 16177) JPT Nov. 86, 1264
Applications: phase behavior of crude oil and condensate systems; discussion of, (Discussion SPE 16046) JPT Nov. 86, 1263
Development: Mobil's integrated approach, (Tech. Paper SPE 13292) JPT Dec. 86, 1353-1354

Engineering Education
Petroleum: current role of computers and what should it be?, (Tech. Paper SPE 13291) JPT Feb. 86, 197-207

Enhanced Recovery
1984 Natl. Petroleum Council study: oil overview, (Tech. Paper SPE 13239) JPT Aug. 86, 869-874
And supplemental oil projects: valuation with risk analysis, (Tech. Paper SPE 11303) JPT Jan. 86, 57-69
By miscible displacement: definition of miscibility, (Tech. Paper SPE 15794) JPT Aug. 86, 817-818
Miscible displacement: planning of large-scale flood at Prudhoe Bay, (Tech. Paper SPE 13600) JPT Oct. 86, 1103-1110
Of oil by miscible processes: 1984 Natl. Petroleum Council estimate of potential, (Tech. Paper SPE 13241) JPT Aug. 86, 875-882
Oil projects: surface processing of carbon dioxide, (Tech. Paper SPE 15916) JPT Aug. 86, 823-828
Value of CO2: framework and results, (Tech. Paper SPE 15194) JPT Sept. 86, 987-994

Environmental Protection Agency(EPA)
Regulatory changes impacting drilling and producing operations, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985

Environments
Remote sensing of: practical applications, (Tech. Paper SPE 15192) JPT Jan. 86, 9-16

Equipment
Blowout preventers: how they work, (Tech. Paper SPE 15795) JPT Sept. 86, 935-937
Measurement while drilling tool, (Tech. Paper SPE 15276) JPT Feb. 86, 128-130
Measurement while drilling tool: discussion of, (Discussion SPE 15328) JPT May 86, 590
Measurement while drilling tool; author's reply to discussion of, (Rebuttal SPE 15343) JPT May 86, 590-591
Oilfield tubular goods: methods for evaluating the quality of inspections, (Tech. Paper SPE 13065) JPT Jan. 86, 88-96
Rig time estimates: planning technique is key to drilling efficiency; author's reply to discussion of, (Rebuttal SPE 15044) JPT Feb. 86, 227
Rig time estimates: planning technique is key to drilling efficiency; discussion of, (Discussion SPE 14971) JPT Feb. 86, 227

Evaluations
And selection of materials: sour service in petroleum production, (Tech. Paper SPE 16040) JPT Oct. 86, 1051-1061
Gasfield: reservoir and production operation planning, (Tech. Paper SPE 11472) JPT Feb. 86, 217-226
Of fracturing during waterflooding: field experiment, (Tech. Paper SPE 13747) JPT Oct. 86, 1113-1121
Of quality of oilfield tubular inspections, (Tech. Paper SPE 13065) JPT Jan. 86, 88-96
Of recovering crude oil by surfactant waterflood techniques: general approach to estimating cost, (Tech. Paper SPE 13236) JPT Feb. 86, 208-216
Oil and gas economic software: method for selecting for microcomputer systems, (Tech. Paper SPE 13761) JPT Feb. 86, 189-196
Oil and gas economic software: method for selecting for microcomputer systems; author's reply to discussion of, (Rebuttal SPE 15679) JPT Jun. 86, 673
Oil and gas economic software: method for selecting for microcomputer systems; discussion of, (Discussion SPE 15341) JPT Jun. 86, 673
Oil properties: values and costs of reserves, (Tech. Paper SPE 13773) JPT Mar. 86, 325-329

Explorations
Aeromagnetic: practical applications of remote sensing, (Tech. Paper SPE 15192) JPT Jan. 86, 9-16
Programs: projected outcomes based on current status and impact of prospects under consideration, (Tech. Paper SPE 13783) JPT Apr. 86, 461-467
Risk-appraised economic analysis of oil and gas prospects: use of computerized statistical data, (Tech. Paper SPE 13781) JPT Apr. 86, 447-452

F

Field Applications
Tubing-conveyed perforating: study of underbalance pressures necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

Field Case History
Yibal field, Oman: Shuaiba reservoir geological study, (Tech. Paper SPE 11454) JPT Jun. 86, 651-661

Field Tests
Modified isochronal tests: analysis to predict stabilized deliverability potential of gas wells without using stabilized flow data; discussion of, (Discussion SPE 12933) JPT Oct. 86, 1122-1124
Financing
Computing the internal ROR (IRR), (Tech. Paper SPE 14879) JPT May 86, 577-582
Computing the internal ROR (IRR); discussion of, (Discussion SPE 15843) JPT Aug. 86, 906
Discounted cash flow ROR: what it never did require; author's reply to discussions of, (Rebuttal SPE 15681) JPT Jun. 86, 679-681
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15327) JPT Jun. 86, 674-675
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15324) JPT Jun. 86, 675
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15331) JPT Jun. 86, 676-678
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15332) JPT Jun. 86, 678
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15910) JPT Sept. 86, 986
Discounted cash flow rate of return: what it never did require, (Tech. Paper SPE 14694) JPT Jan. 86, 85-87
Mergers: corporate takeovers and petroleum-industry restructuring, (Tech. Paper SPE 15169) JPT May 86, 549-556
Flow Rate
At transient, semisteady-state and steady-state conditions, (Tech. Paper SPE 15278) JPT Apr. 86, 385-386
Fluid Flow
In Maljamar CO2 pilot; use of well logs to characterize, (Tech. Paper SPE 13142) JPT Aug. 86, 883-890
Multiphase: X-ray CT and NMR imaging of rocks, (Tech. Paper SPE 15277) JPT Mar. 86, 257-259
Stabilized deliverability potential: of gas wells without using stabilized flow data: analysis of modified isochronal tests to predict; discussion of, (Discussion SPE 12933) JPT Oct. 86, 1122-1124
Transient, semisteady-state and steady-state conditions, (Tech. Paper SPE 15278) JPT Apr. 86, 385-386
Forecasting
Price: effect on analysis and management of petroleum investments; nontechnical distortions, (Tech. Paper SPE 14672) JPT Dec. 86, 1336-1344
Foreign Operations
Discounted cash flow rate of return: what it never did require, (Tech. Paper SPE 14694) JPT Jan. 86, 85-87
Formation Damage
By precipitation of hydrated silica from spent hydrochloric acid: how much of a problem is it?, (Tech. Paper SPE 13083) JPT Nov. 86, 1234-1240
In oilfield operations: overview of, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
Formation Factors
Effects of wettability on: porous media; Part 3, wettability literature survey, (Tech. Paper SPE 13934) JPT Dec. 86, 1371-1378
Formation Fractures
Acidizing concepts, (Tech. Paper SPE 15279) JPT May 86, 507-508
In waterflooding experiment: detection of, (Tech. Paper SPE 13747) JPT Oct. 86, 1113-1121
Formation Fracturing
Hydraulic: plasticity effects in, (Tech. Paper SPE 11068) JPT Sept. 86, 995-1006
Webb and Zapata counties, TX: case study of Wilcox (Lobo) trend, (Tech. Paper SPE 11600) JPT Dec. 86, 1355-1364
Fractured Reservoirs or Fracturing
Hydraulic: plasticity effects in, (Tech. Paper SPE 11068) JPT Sept. 86, 995-1006
In oilfield operations: overview of well productivity, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
Fractures
Acidizing: vs. matrix acidizing, (Tech. Paper SPE 15279) JPT May 86, 507-508

G

Gamma Rays
Spectrometry: developments in remote elemental analysis of rock formations, (Tech. Paper SPE 15281) JPT Jul. 86, 711-713
Gas Fields
Development: reservoir and production operations planning, (Tech. Paper SPE 11472) JPT Feb. 86, 217-226
In North Sea: economics of disposal methods; study in comparative advantage, (Tech. Paper SPE 13780) JPT May 86, 570-576
Gas Production
And distribution: use of mathematical decomposition to optimize investments, (Tech. Paper SPE 11292) JPT Jan. 86, 70-84
Gas Wells
In south Texas: in-situ stress measurements during drilling, (Tech. Paper SPE 13227) JPT Aug. 86, 891-898
Stabilized deliverability potential: predicting without using stabilized data; analysis of modified isochronal tests; discussion of, (Discussion SPE 12933) JPT Oct. 86, 1122-1124
Geological Study
Of Shuaiba reservoir: Yibal field, Oman, (Tech. Paper SPE 11454) JPT Jun. 86, 651-661
Geophysics
Remote sensing: practical applications of, (Tech. Paper SPE 15192) JPT Jan. 86, 9-16
Geopressure
In U.S. gulf coast zones: summary of geothermal and methane production potential from test well data, (Tech. Paper SPE 13090) JPT Dec. 86, 1365-1370
Geothermal Reservoir
Modeling of, (Tech. Paper SPE 13613) JPT Sept. 86, 1007-1021
Geothermal Wells
Summary of production potential from well test data: U.S. gulf coast geopressured zones, (Tech. Paper SPE 13090) JPT Dec. 86, 1365-1370
Gulf Coast
Geopressured zones in U.S.: summary of geothermal and methane production potential from test well data, (Tech. Paper SPE 13090) JPT Dec. 86, 1365-1370
Regulatory changes impacting drilling and producing operations, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985
Gulf of Mexico
Regulatory changes impacting drilling and producing operations, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985
Tubing-conveyed perforating: field study of underbalance pressures necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

Tubing-conveyed perforating: field study of underbalance pressures necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

New Zealand

Wairakei field: modeling of geothermal system, (Tech. Paper SPE 13613) JPT Sept. 86, 1007-1021

Nomographs

SI metric system: application of; Part 2, the basic units; author's reply to discussion of, (Rebuttal SPE 15190) JPT Jan. 86, 97

North Sea

Field developments: historic costs and future trends, (Tech. Paper SPE 12984) JPT Nov. 86, 1211-1220

Oil and gas fields: economics of disposal methods; study in comparative advantage, (Tech. Paper SPE 13780) JPT May 86, 570-576

Reservoir example: high-permeability; pressure-derivative approach to transient test analysis; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355

Reservoir example: high-permeability; pressure-derivative approach to transient test analysis; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354

Reservoir fluids and injection gases: phase behavior of systems comprising, (Tech. Paper SPE 12647) JPT Nov. 86, 1221-1233

Norway

Oseberg field: pressure-derivative approach to transient test analysis; high-permeability, North Sea reservoir example; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355

Oseberg field: pressure-derivative approach to transient test analysis; high-permeability, North Sea reservoir example; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354

Nuclear Magnetic Resonance

Imaging of rocks, (Tech. Paper SPE 15277) JPT Mar. 86, 257-259

Numerical Solutions

Linear programming optimizes unit negotiations, (Tech. Paper SPE 13766) JPT Mar. 86, 330-336

Of internal ROR, (Tech. Paper SPE 14879) JPT May 86, 577-582

Of internal ROR: discussion of, (Discussion SPE 15843) JPT Aug. 86, 906

Optimizing investments in gas production and distribution: use of mathematical decomposition, (Tech. Paper SPE 11292) JPT Jan. 86, 70-84

Simulation of sandstone-matrix acidizing in heterogeneous reservoirs, (Tech. Paper SPE 13218) JPT Jul. 86, 753-767

Three-phase coning: second comparative solution project study, (Tech. Paper SPE 10489) JPT Mar. 86, 345-353

O

Offshore Operations

Detection of a formation fracture: waterflooding experiment, (Tech. Paper SPE 13747) JPT Oct. 86, 1113-1121

North Sea oil and gas fields: economics of disposal methods; study in comparative advantage, (Tech. Paper SPE 13780) JPT May 86, 570-576

Oil

Economics: method for selecting software for microcomputer systems, (Tech. Paper SPE 13761) JPT Feb. 86, 189-196

Economics: method for selecting software for microcomputer systems; author's reply to discussion of, (Rebuttal SPE 15679) JPT Jun. 86, 673

Economics: method for selecting software for microcomputer systems; discussion of, (Discussion SPE 15341) JPT Jun. 86, 673

Heavy: CO2 recovery of; Wilmington field test, (Tech. Paper SPE 12082) JPT Jul. 86, 769-776

Middle East: geopolitical implications, (Tech. Paper SPE 14625) JPT Nov. 86, 1241-1245

Reserves: values and costs of, (Tech. Paper SPE 13773) JPT Mar. 86, 325-329

Rock/brine interactions: and effects of core handling on wettability; literature survey, (Tech. Paper SPE 13932) JPT Oct. 86, 1125-1144

Oil Fields

Economics: role of 3D seismic technique in improving, (Tech. Paper SPE 13053) JPT Jul. 86, 777-786

In North Sea: economics of disposal methods; study in comparative advantage, (Tech. Paper SPE 13780) JPT May 86, 570-576

Operations: overview of formation damage and well productivity, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152

Quality of tubular inspections: methods for evaluating, (Tech. Paper SPE 13065) JPT Jan. 86, 88-96

Surveillance with personal computers, (Tech. Paper SPE 13632) JPT Jun. 86, 665-668

Venture analysis: principles of simulation applied with systems approach, (Tech. Paper SPE 14488) JPT Oct. 86, 1111-1112

Oil Recovery

1984 Natl. Petroleum Council study: overview of enhanced production rate, (Tech. Paper SPE 13239) JPT Aug. 86, 869-874

By miscible displacement: definition of miscibility, (Tech. Paper SPE 15794) JPT Aug. 86, 817-818
By surfactant waterflooding: general approach to estimating cost, (Tech. Paper SPE 13236) JPT Feb. 86, 208-216
Enhanced and supplemental projects: valuation with risk analysis, (Tech. Paper SPE 11303) JPT Jan. 86, 57-69
Enhanced by miscible processes: 1984 Natl. Petroleum Council estimate of potential, (Tech. Paper SPE 13241) JPT Aug. 86, 875-882
Enhanced: surface processing of carbon dioxide in projects, (Tech. Paper SPE 15916) JPT Aug. 86, 823-828
Value of CO2: framework and results, (Tech. Paper SPE 15194) JPT Sept. 86, 987-994

Oil Reservoirs
Phase behavior of crude oil systems: engineering applications of, (Tech. Paper SPE 15835) JPT Jul. 86, 715-723
Phase behavior of crude oil systems: engineering applications of; author's reply to discussion of, (Rebuttal SPE 16177) JPT Nov. 86, 1264
Phase behavior of crude oil systems: engineering applications of; discussion of, (Discussion SPE 16046) JPT Nov. 86, 1263

Olkaria Field
See Kenya

Oman
Yibal field: Shuaiba reservoir geological study, (Tech. Paper SPE 11454) JPT Jun. 86, 651-661

Optimization
Of investments in gas production and distribution: use of mathematical decomposition, (Tech. Paper SPE 11292) JPT Jan. 86, 70-84

Orientation
Grid: and difference scheme; effects on pattern steamflood simulation results, (Tech. Paper SPE 11079) JPT May 86, 557-569

Oseberg Field
See Norway

Outer Continental Shelf
Lease bidding data: non-log-normality of, (Tech. Paper SPE 13756) JPT Apr. 86, 443-446

P

Perforating
In oilfield operations: overview of well productivity, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
Tubing-conveyed: field study of underbalance pressures necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

Permeability
High: North Sea reservoir example; pressure-derivative approach to transient test analysis; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355
High: North Sea reservoir example; pressure-derivative approach to transient test analysis; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354

Petroleum
Demand prediction: and long-term cycles, (Tech. Paper SPE 13759) JPT Jun. 86, 669-672
Investments: nontechnical distortions in analysis and management of, (Tech. Paper SPE 14672) JPT Dec. 86, 1336-1344
Production: selection of materials for sour service, (Tech. Paper SPE 16040) JPT Oct. 86, 1051-1061

Petroleum Economics
And microcomputers software: purchaser's guide, (Tech. Paper SPE 13101) JPT Mar. 86, 337-344

Petroleum Engineering
Education: current role of computers and what should it be?, (Tech. Paper SPE 13291) JPT Feb. 86, 197-207
Values and costs of oil reserves; evaluation of, (Tech. Paper SPE 13773) JPT Mar. 86, 325-329

Petroleum Industry
Restructuring: and corporate takeovers, (Tech. Paper SPE 15169) JPT May 86, 549-556

Petrophysics
Shuaiba reservoir study: Yibal field, Oman, (Tech. Paper SPE 11454) JPT Jun. 86, 651-661

Phase Behavior
Of CO2: changes by surface processing in EOR projects, (Tech. Paper SPE 15916) JPT Aug. 86, 823-828
Of crude oil and condensate systems: engineering applications, (Tech. Paper SPE 15835) JPT Jul. 86, 715-723
Of crude oil and condensate systems: engineering applications of; author's reply to discussion of, (Rebuttal SPE 16177) JPT Nov. 86, 1264
Of crude oil and condensate systems: engineering applications; discussion of, (Discussion SPE 16046) JPT Nov. 86, 1263
Of systems comprising North Sea reservoir fluids and injection gas, (Tech. Paper SPE 12647) JPT Nov. 86, 1221-1233

Physical Properties
Of rock formations: new developments in remote elemental analysis, (Tech. Paper SPE 15281) JPT Jul. 86, 711-713

Pilot Study
CO2 recovery of heavy oil: Wilmington field, California, (Tech. Paper SPE 12082) JPT Jul. 86, 769-776
Of maintenance management: and microcomputers; do they mix, (Tech. Paper SPE 13778) JPT May 86, 583-589
Of maintenance management: and microcomputers; do they mix?; discussion of, (Discussion SPE 15841) JPT Aug. 86, 906
Use to characterize fluid flow: maljamar CO2 pilot, (Tech. Paper SPE 13142) JPT Aug. 86, 883-890

Planning
Technique: key to drilling efficiency; author's reply to discussion of, (Rebuttal SPE 15044) JPT Feb. 86, 227
Technique: key to drilling efficiency; discussion of, (Discussion SPE 14971) JPT Feb. 86, 227

Plasticity
Effects in hydraulic fracturing, (Tech. Paper SPE 11068) JPT Sept. 86, 995-1006

Porosity
Calibration of neutron logs: SACROC unit, (Tech. Paper SPE 13289) JPT Apr. 86, 468-476
Calibration of neutron logs: SACROC unit; author's reply to discussion of, (Rebuttal SPE 15846) JPT Jul. 86, 768
Calibration of neutron logs: SACROC unit; discussion of, (Discussion SPE 15799) JPT Jul. 86, 768

Porous Media
Effects of wettability on electrical properties: Part 3, wettability literature survey, (Tech. Paper SPE 13934) JPT Dec. 86, 1371-1378

Precipitation
Of hydrated silica from spent hydrofluoric acid: how much of a problem is it?, (Tech. Paper SPE 13083) JPT Nov. 86, 1234-1240

Present Worth
Discounted cash flow ROR: what it never did require; author's reply to discussions of, (Rebuttal SPE 15681) JPT Jun. 86, 679-681
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15327) JPT Jun. 86, 674-675

Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15324) JPT Jun. 86, 675
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15331) JPT Jun. 86, 676-678
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15332) JPT Jun. 86, 678
Discounted cash flow ROR: what it never did require; discussion of, (Discussion SPE 15910) JPT Sept. 86, 986
Discounted cash flow rate of return: what it never did require, (Tech. Paper SPE 14694) JPT Jan. 86, 85-87

Pressure Behavior
Transient, semisteady-state and steady-state flow, (Tech. Paper SPE 15278) JPT Apr. 86, 385-386
Underbalance necessary to obtain clean perforations using tubing-conveyed perforating: field study, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

Pressure Transients
Test: pressure-derivative approach to analysis; high-permeability, North Sea reservoir example; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355
Test: pressure-derivative approach to analysis; high-permeability, North Sea reservoir example; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354

Probability
Use in projecting outcomes of exploration programs based on current program status: impact of prospects under consideration, (Tech. Paper SPE 13783) JPT Apr. 86, 461-467

Production
Petroleum demand: prediction of; and long-term cycles, (Tech. Paper SPE 13759) JPT Jun. 86, 669-672
Petroleum: selection of materials for sour service, (Tech. Paper SPE 16040) JPT Oct. 86, 1051-1061

Production Operations
Planning: gasfield development, (Tech. Paper SPE 11472) JPT Feb. 86, 217-226
Regulatory practices impacting, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985

Profitability
Energy lending, (Tech. Paper SPE 13787) JPT Dec. 86, 1345-1352

Project Management
Exploration programs: projected outcomes based on current program status; impact of prospects under consideration, (Tech. Paper SPE 13783) JPT Apr. 86, 461-467
Gasfield development: reservoir and production operations planning, (Tech. Paper SPE 11472) JPT Feb. 86, 217-226

Q

Qatar
Idd el Shangi reservoir: detection of a formation fraction; waterflooding field experiment, (Tech. Paper SPE 13747) JPT Oct. 86, 1113-1121

Quality Control
Of oilfield tubular inspections: methods for evaluating, (Tech. Paper SPE 13065) JPT Jan. 86, 88-96

R

Rate of Return
Discounted cash flow: what it never did require, (Tech. Paper SPE 14694) JPT Jan. 86, 85-87
Discounted cash flow: what it never did require; author's reply to discussions of, (Rebuttal SPE 15681) JPT Jun. 86, 679-681
Discounted cash flow: what it never did require; discussion of, (Discussion SPE 15327) JPT Jun. 86, 674-675
Discounted cash flow: what it never did require; discussion of, (Discussion SPE 15324) JPT Jun. 86, 675
Discounted cash flow: what it never did require; discussion of, (Discussion SPE 15331) JPT Jun. 86, 676-678
Discounted cash flow: what it never did require; discussion of, (Discussion SPE 15332) JPT Jun. 86, 678
Discounted cash flow: what it never did require; discussion of, (Discussion SPE 15910) JPT Sept. 86, 986
Internal: computing efficiently for an investment, (Tech. Paper SPE 14879) JPT May 86, 577-582
Internal: computing efficiently for an investment; discussion of, (Discussion SPE 15843) JPT Aug. 86, 906

Real Time Basis
Of job monitoring: improved cementing success through use of, (Tech. Paper SPE 15280) JPT Jun. 86, 619-620

Recovery Methods
Heavy oil by CO2: Wilmington field test, (Tech. Paper SPE 12082) JPT Jul. 86, 769-776

Reflection
Seismology, advanced: role of 3D technique in improving oilfield economics, (Tech. Paper SPE 13053) JPT Jul. 86, 777-786

Regulatory Practices
Changes impacting drilling and producing operations, (Tech. Paper SPE 13472) JPT Sept. 86, 981-985

Remote Sensing
Practical applications of, (Tech. Paper SPE 15192) JPT Jan. 86, 9-16

Reserves
Oil: values and costs of, (Tech. Paper SPE 13773) JPT Mar. 86, 325-329

Reservoir Characteristics
Descriptive role of 3D seismic technique in, (Tech. Paper SPE 13053) JPT Jul. 86, 777-786

Reservoir Fluids
And injection gases: North Sea; phase behavior of systems comprising, (Tech. Paper SPE 12647) JPT Nov. 86, 1221-1233

Reservoirs
Gas: time/planning relationships, (Tech. Paper SPE 11472) JPT Feb. 86, 217-226
Heterogeneous: simulation of sandstone-matrix acidizing, (Tech. Paper SPE 13218) JPT Jul. 86, 753-767

Retrograde Condesation
Phase behavior of condensate systems: engineering applications, (Tech. Paper SPE 15835) JPT Jul. 86, 715-723
Phase behavior of condensate systems: engineering applications of; discussion of, (Discussion SPE 16046) JPT Nov. 86, 1263

Risk Analysis
Exploration prospects under consideration: impact of; projected outcomes of programs based on current program status, (Tech. Paper SPE 13783) JPT Apr. 86, 461-467
In appraised economic analysis of oil and gas prospects: use of computerized statistical data, (Tech. Paper SPE 13781) JPT Apr. 86, 447-452
Use in valuation of supplemental and enhanced oil recovery projects, (Tech. Paper SPE 11303) JPT Jan. 86, 57-69

Rock Properties
Developments in remote elemental analysis, (Tech. Paper SPE 15281) JPT Jul. 86, 711-713

Rocks
Imaging of; by X-ray CT and NMR, (Tech. Paper SPE 15277) JPT Mar. 86, 257-259
Oil/brine interactions: and effects of core handling on wettability; literature survey, (Tech. Paper SPE 13932) JPT Oct. 86, 1125-1144
Rocky Mountain Area
Tubing-conveyed perforating: field study of underbalance pressures necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664

Mud pulse: MWD tool; discussion of, (Discussion SPE 15328) JPT May 86, 590
Testing
Materials for sour service in petroleum production, (Tech. Paper SPE 16040) JPT Oct. 86, 1051-1061
Practices: in Webb and Zapata counties, TX; case study of Wilcox (Lobo) trend, (Tech. Paper SPE 11600) JPT Dec. 86, 1355-1364
Transient: pressure-derivative approach to analysis; high-permeability North Sea reservoir example; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355
Transient: pressure-derivative approach to analysis; high-permeability North Sea reservor example; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354
Texas
Gulf coast geopressured zones: summary of geothermal and methane production from test twell data, (Tech. Paper SPE 13090) JPT Dec. 86, 1365-1370
LaGloria Gas Plant: microcomputers and maintenance management; do they mix?; discussion of, (Discussion SPE 15841) JPT Aug. 86, 906
LaGloria gas plant: microcomputers and maintenance management; do they mix?, (Tech. Paper SPE 13778) JPT May 86, 583-589
SACROC unit: porosity calibration of neutron logs, (Tech. Paper SPE 13289) JPT Apr. 86, 468-476
SACROC unit: porosity calibration of neutron logs; author's reply to discussion, (Rebuttal SPE 15846) JPT Jul. 86, 768
SACROC unit: porosity calibration of neutron logs; discussion of, (Discussion SPE 15799) JPT Jul. 86, 768
South: gas well; in-situ stress measurements during drilling, (Tech. Paper SPE 13227) JPT Aug. 86, 891-898
Webb and Zapata counties: case study of Wilcox (Lobo) trend, (Tech. Paper SPE 11600) JPT Dec. 86, 1355-1364
Thermal Recovery of Oil
Pattern steamflood simulation results: effects of grid type and difference scheme, (Tech. Paper SPE 11079) JPT May 86, 557-569
Tomography
X-ray computerized: and NMR imaging of rocks, (Tech. Paper SPE 15277) JPT Mar. 86, 257-259
Tracers
Study: Maljamar CO2 pilot; use of well logs to characterize fluid flow, (Tech. Paper SPE 13142) JPT Aug. 86, 883-890
Training
Development of engineers: Mobil's integrated approach, (Tech. Paper SPE 13292) JPT Dec. 86, 1353-1354
Transformations
Of neutron deflection logs into neutron porosity: calibration in SACROC unit, (Tech. Paper SPE 13289) JPT Apr. 86, 468-476
Of neutron deflection logs into neutron porosity: calibration in SACROC unit; author's reply to discussion of, (Rebuttal SPE 15846) JPT Jul. 86, 768
Of neutron deflection logs into neutron porosity: calibration in SACROC unit; discussion of, (Discussion SPE 15799) JPT Jul. 86, 768
Transient Flow
Semisteady-state and steady-state conditions, (Tech. Paper SPE 15278) JPT Apr. 86, 385-386
Test analysis: pressure-derivative approach; high-permeability North Sea reservoir example; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354
Test analysis: pressure-derivative approach; high-permeability North Sea reservor example; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355
Tubular Goods
Conveyed perforating: field study of underbalance pressure necessary to obtain clean perforations, (Tech. Paper SPE 14321) JPT Jun. 86, 662-664
Oilfield inspections: methods for evaluating quality, (Tech. Paper SPE 13065) JPT Jan. 86, 88-96

Type Curves
Drawbacks: in high-permeability North Sea reservoir; pressure-derivative approach to transient test analysis; author's reply to discussion of, (Rebuttal SPE 15320) JPT Mar. 86, 355
Drawbacks: in high-permeability North Sea reservoir; pressure-derivative approach to transient test analysis; discussion of, (Discussion SPE 15270) JPT Mar. 86, 354

U

United Kingdom
Continental Shelf field developments: North Sea; historic costs and future trends, (Tech. Paper SPE 12984) JPT Nov. 86, 1211-1220
Highlander field: development of subsea completion system, (Tech. Paper SPE 13428) JPT Apr. 86, 453-460
United States
Geopolitical implications of Middle East oil, (Tech. Paper SPE 14625) JPT Nov. 86, 1241-1245
Gulf coast geopressured zones: summary of geothermal and methane production potential from test well data, (Tech. Paper SPE 13090) JPT Dec. 86, 1365-1370

V

Valuations
Of supplemental and enhanced oil recovery projects with risk analysis, (Tech. Paper SPE 11303) JPT Jan. 86, 57-69

W

Wairakei Field

Waterflooding
Experiment: detection of a formation fracture, (Tech. Paper SPE 13747) JPT Oct. 86, 1113-1121
Surfactant techniques: cost of recovering crude oil by: general approach to estimating, (Tech. Paper SPE 13236) JPT Feb. 86, 208-216
Well Completion
Subsea system development: Highlander field, United Kingdom, (Tech. Paper SPE 13428) JPT Apr. 86, 453-460
Well Logging
Developments in remote elemental analysis of rock formations, (Tech. Paper SPE 15281) JPT Jul. 86, 711-713
Well Logs
Use to characterize fluid flow: Maljamar CO2 pilot, (Tech. Paper SPE 13142) JPT Aug. 86, 883-890
Well Pattern
Steamflood simulation results: effects of grid type and difference scheme, (Tech. Paper SPE 11079) JPT May 86, 557-569
Well Plugging
In oilfield operations: overview of well productivity, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
Well Productivity
In oilfield operations: overview of, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
Well Treatment
In oilfield operations: overview of formation damage, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152
Wellbore Mechanics
Hole angle and direction: factors controlling, (Tech. Paper SPE 15963) JPT Nov. 86, 1171-1173
Wettability
Literature survey: Part 2: wettability measurement, (Tech. Paper SPE 13933) JPT Nov. 86, 1246-1262
Literature survey: Part 3: effects of wettability on electrical properties of porous media, (Tech. Paper SPE 13934) JPT Dec. 86, 1371-1378
Workovers
In oilfield operations: overview of formation damage, (Tech. Paper SPE 10029) JPT Feb. 86, 131-152

X

X-Rays
Computerized tomography: imaging of rocks, (Tech. Paper SPE 15277) JPT Mar. 86, 257-259
